

Derwent Way Soil Loading & Barge Facility

Public Notice: Public Consultation

Summit Earthworks (Summit) will be holding facilitated digital public consultation sessions regarding its proposal to construct and operate the 'Derwent Way Soil Transfer and Barge Facility' located on the corner of Derwent Way and Salter St. in New Westminster. The proposed project is currently being reviewed by the Vancouver Fraser Port Authority (port authority) under their Project and Environmental Review process. These sessions are further to an online public comment period undertaken in 2017.

Consultation Format

Given the continued COVID-19 restrictions regarding in-person gatherings and physical distancing – and to ensure we protect the health and safety of everyone – this public consultation will be done digitally using the Zoom technology. There will be two evenings of small group, facilitated digital public consultation designed and led by a professional facilitator. Each evening will consist of two separate sessions on the community concerns identified to date:

- Part A: Construction and Operations Concerns (Facility Design, Traffic, Noise & Aesthetics); and
- Part B: Environment Concerns (Soil, Air Quality, Habitat and Water Quality).

Facilitated Digital Public Consultation Session Schedule

SESSION #1 **Tuesday, June 23, 2020, 5:30 p.m. – 8:40 p.m.**
Part A will be a Zoom meeting from 5:30 p.m. – 7:00 p.m.
Part B will be a separate Zoom meeting from 7:10 p.m. – 8:40 p.m.

SESSION #2 **Thursday, June 25, 2020, 5:30 p.m. – 8:40 p.m.**
Part A will be a Zoom meeting from 5:30 p.m. – 7:00 p.m.
Part B will be a separate Zoom meeting from 7:10 p.m. – 8:40 p.m.

You may register for either one or both parts, on one of the two evenings by visiting:
www.summitearthworks.ca/derwent-way/.

Public Comment Period

Summit is also inviting the public to submit additional comments on the proposed project. **The public comment period will be open until July 6, 2020.**

You may provide your comments:

- Via the on-line survey (www.summitearthworks.ca/derwent-way/)
- By email (info@summitearthworks.ca)
- By regular Mail (Summit Earthworks, c/o Steve Rosell, General Manager, 33171 2nd Avenue, Mission, BC V2V 6T8)

To access information on the proposed project, construction and operational activities, and potential effects on the environment and local communities, visit www.summitearthworks.ca/derwent-way/.

Technical reports relating to the project can be found at www.portvancouver.com/derwentway.

COMMENTS MAY BE SUBMITTED UNTIL JULY 06, 2020.

About the proposed project

The project application is for a transfer facility that would be receiving waste soil from development sites in Metro Vancouver for onward transport to a permanent treatment facility in Mission, BC. The received soils would not contain hazardous waste. The soil would not be stored or treated onsite. The soils would be temporarily stockpiled before being transported by barge to the permanent treatment/disposal facility.

The proposed transfer facility would be constructed with a lined, paved, and covered temporary soil storage area, a sound barrier wall on the western boundary (with a tree hedge), a truck wheel wash station, a water treatment system, and supporting civil infrastructure.

Pending permit approval, construction would be expected to begin shortly after approval, for a duration of approximately 6 months. Once operational, trucks would access the proposed site from Salter St. with about 15 to 30 trucks arriving at the proposed facility daily, to a maximum of 60 trucks.
